

BeSEAL™

The Bottom Seal that Conforms

The BeSeal is the perfect solution to replace damaged or missing bottom seals. BeSeal's tight seal conforms to dock levelers and uneven floors eliminating light leaks and critter infiltration... **most importantly BeSeal seals up drafts that steal expensive energy from your facility!**

BeSeal – the best solution for missing bottom seals

- Conforms to completely seal damaged bottom panels.
- Stops energy loss from under your doors.
- Easy to install regardless of condition of bottom panel.
- Eliminates light gaps.
- Conforms to dock levelers and uneven floors.
- Made of durable fiber re-enforced Vinyl outer skin with a long lasting memory foam core.
- 2" thick foam with 2" high double re-enforced attachment flap interior and exterior.
- Compresses to create tight seal eliminating air and critter infiltration.
- Ships with self tapping screws and rubber laced washers.
- Available to fit all width size doors, order same length as door panels.
- Available for 1.5" to 4" panel thicknesses.
- Made in the USA
