The Dock Light & Traffic Safety Light in a Bollard

The BeSafe Dock Light & Traffic Safety Light Solution:

- BeSafe is protected inside of a bollard and structural steel housing
- BeSafe is easily visible to inside personnel
- BeSafe helps to eliminate unsafe premature truck departure
- BeSafe saves time and money associated with replacing damaged dock safety lights
- Available as an option to the BeLight and BeLight Twins

BeSafe Dock Light and Traffic Safety Light Design

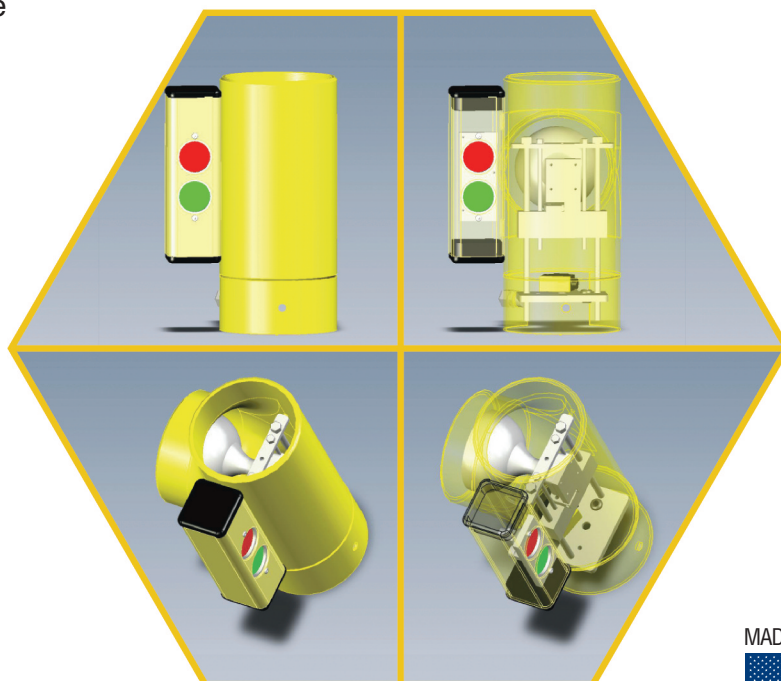

BeSafe is easily seen by drivers outside & warehouse personnel inside; alerting them to the position of the dock door.

All of the same features as the BeLight plus:

- BeSafe traffic lights switch as the door is opened and closed
- BeSafe dock light and inside red/green lights are fully protected
- Super bright LED red and green lights inside
- LED exterior light fixture (flashing light optional)
- Suspended drop in capsule includes photo eye
- Removes light fixtures from the wall
- Manual switch version available
